

BioPrime wins Global BioAgTech Pioneering Innovation Award 2025!

<http://www.big.venturecenter.co.in/bioprime/>

Congratulations

BioPrime™ has won the Global BioAgTech Pioneering Innovation Award 2025 at the 6th BioAgTech World Congress – the world’s largest gathering dedicated to agricultural biologicals!

BioPrime is redefining agri-biotech with next-generation agri-biologicals that improve crop resilience, reduce synthetic input use, and foster sustainable farming. Their Bionexus library, India's largest collection of over 15,000 plant-associated microbes, is a testament to their scientific leadership in harnessing microbial potential for crop improvement.

This prestigious recognition highlights BioPrime’s unwavering commitment to science-driven, sustainable agriculture.
